AstraChat Mobile Overview

Available on iOS

And Android

What makes AstraChat different

The diagram illustrates the AstraChat interface and its key features. At the center is a smartphone displaying a chat conversation with a contact named 'Andy'. The chat history shows a date separator for 'Fri, Nov 11, 2017', followed by a grey message: 'Hey Andy, where have you been?' (12:31) and a blue response: 'Traveling outside the Country' (12:32). Below the text is a landscape photograph of mountains at sunset. To the left of the phone, two circular callouts highlight features: 'Secure Connection' with a padlock icon and a checkmark, and 'Picture Share' with icons for a camera and a photo. To the right, a callout labeled 'Direct Connect' shows a server rack connected to a smartphone. A blue banner in the top right corner of this section reads 'Always ON!'.
